

Q6 Descriptive Question(5 Marks Each)

Question (6A)

i)Q1 Discuss different activation functions used in Neural Network -

OR

ii) Design MC-Pitts Neuron Model for "XOR " functions .

Question (6B)

i) Illustrate Logistic regression in details with example .

OR

ii) The rent of a property is related to its area .Given the area in square feet and rent in Rs .Find the relationship between area and rent using the concept of linear regression .Also predict the rent for a property of 850 ft

X(Area ft ²)	Y(Rent)Rs
340	500
1080	1700
640	1100
880	800
990	1400
510	500
